

Bank of Ireland Mortgage Bank

Mortgage Fees and Costs

Valuation

The Bank requires that you arrange a valuation of the property (or properties) offered as security, carried out by a valuer acceptable to the Bank. You will need to pay the valuation fee direct to the valuer. You need to agree that fee with the valuer (you should expect to pay a fee of €150 to €250 plus VAT but this can vary). If a loan agreement with you is withdrawn, this fee may be refunded. No responsibility is implied or accepted or warranty given by the Bank for the value or condition of the property as outlined in the valuation. The valuation report will remain the property of the Bank and you are entitled to your own copy of the report.

Legal fees

You will need to pay legal fees to your own solicitor, which you need to agree with him or her as part of your own arrangement. This does not include costs associated with the Bank's legal investigation of title for the purpose of the Mortgage.

Accountable trust receipt: €63. You will need to pay this fee where your solicitor requests the Title Deeds from the Bank on your behalf. This fee does not apply where a customer seeks additional funds on the same security.

Security Perfection Fee for Equity Release: €400. This fee covers the Bank's legal expenses where the Bank agrees to handle an Equity Release loan without the need for a customer to engage his/her own solicitor.

The following additional costs will be payable by the borrower for buy to let properties and principal dwelling housing where the loan amount is €1.5 million or over.

1. The borrower must reimburse the Bank for the legal costs incurred by the Lender in effecting the Lender's Security and related tasks (excluding costs associated with the Bank's legal investigation of title for the purpose of the mortgage);
2. The outlay and fees payable to state agencies for the registration of the Lender's Security, which must be remitted to the borrower's solicitor.

The Lender's legal costs to be reimbursed by the borrower are the following:

- a) The Lender's solicitor's professional fee of €950 plus Value Added Tax per property
- b) Outlay and fees payable to state agencies for the registration of the Lender's Security which shall not exceed €350 per property.

Bank of Ireland is regulated by the Central Bank of Ireland. Bank of Ireland Mortgage Bank trading as Bank of Ireland Mortgages and The Mortgage Store is regulated by The Central Bank of Ireland.

The Lender's legal costs, once paid by the borrower, are not refundable. Typically these must be paid at the closing of the transaction.

You may be liable for legal, valuation and other costs incurred in perfecting the security or any other requirements even if the Mortgage loan is not advanced.

Arrears - Interest Surcharge

If you do not pay us a repayment instalment or other sum of money by the date you are due to pay it, we may charge you a default interest rate of 0.5% per month or part of a month (which is 6% per year) on the unpaid sum. This default interest is added to normal interest.

We do not charge borrowers default interest when they are in a Mortgage Arrears Resolution Process under the Central Bank's Code of Conduct on Mortgage Arrears and are co-operating reasonably and honestly with us.

Repaying your Mortgage early

If you repay your Mortgage early when you are on a variable rate of interest, we charge no redemption fee.

If you repay your Mortgage early when you are on a fixed rate of interest, or change to another rate within your fixed rate period, you may have to pay an additional funding fee. This funding fee is compensation for the additional interest expense that the bank may incur as a result of a customer breaking their fixed rate contract. If there is no additional interest expense incurred by the Bank no compensation will be required.

This is how the funding fee compensation is calculated - it is equal to "C" where:

$$C = Ax (R\% - R1\%) \times D / 365$$

and

- "A" = the amount repaid early (or the amount which is changed from the fixed rate to a new rate) averaged from the date of early repayment (or rate change) to the end of the fixed rate period to allow for scheduled repayments (if there are any) and interest charges.
- "R%" = the annual percentage interest rate which was the cost to us of funding an amount equal to "A" for the originally intended fixed rate period.
- "R1%" = the annual percentage interest rate available to us for a deposit of an amount equal to "A" for a period equal to "D".
- "D" = the number of days from the date of early repayment (or rate change) to the end of the fixed period.

Here is a worked example: -

"Amount" = €250,000,

"R" = 5 %,

"R1" = 3%,

"D" = 2 years or 730 days.

$$C = 250,000 \times (5\% - 3\%) \times 730 / 365$$

So,

$$C = 250,000 \times 2\% \times 730 / 365$$

$$C = €10,000$$
